Visiting Institution must attest to meeting the minimum testing standards of one PCR test per week beginning 7 days prior to the date of competition. The PCR or an additional Antigen test must be administered 48 hours prior to the date of competition and results received prior to submission of attestation form. Officials and Volunteers will be provided more detailed COVID-19 testing and precaution instructions directly.

Face Coverings

All individuals who access the competition area shall be required to wear a face covering, other than student-athletes actively warming up or competing. Proper use of a mask/neck gaiter as a mitigation strategy requires that the mask/neck gaiter must completely cover both the nose and mouth such that neither nostrils nor the tip of the nose is visible.

Physical Distancing

All participants and meet personnel will 6-feet distance from all other individuals.

Facility Traffic Flow

All participants and meet personnel will enter the Sports Deck through the gates closest to the bathrooms located on top of the stairs to the right side when facing the facility. When exiting the facility, all participants will exit through the opposite gate on the side closest to the track and field and soccer rooms. There will be monitors to ensure flow of traffic into and out of the facility. See attached diagram.

Elevators are limited to four people at a time if used and participants should enter and exit the sports deck as described above

Visiting Team Areas

Each visiting team will be assigned a specific area on the lower-level practice field. Student-athletes should stay in that area when not competing and not intermingle with other teams in other team areas. Teams must provide their own tents or pop-ups. Pop-ups can be rented for \$240 from Raphael's Party Rentals, +1 (858) 689-7368, cristina@raphaels.com. Warm Ups will take place on the practice field. No general warm-up will be allowed in the competition area except for specific pre-race warm-ups. See attached diagram.

Hydration

Each visiting team must bring individual water bottles for their athletes. Hydration stations will be limited for sanitation purposes.

Any previously positive individuals who have returned to sport do not need to be a part of the surveillance program in Item 1 for 150 days from the positive test. Post positive individuals shall be returned to the testing population on the 151st day following the positive test, unless state, county or local guidelines require an institution to resume testing at the 90-day threshold.
4. No member of the student-athletes, coaches, or staff have been identified as being a close contact to another individual who has tested positive in the past 14 days.
5. Upon date and time of signature, no member of the student-athletes, coaches, or staff has developed symptoms that might indicate an infection of COVID-19 between the time the most recent test was collected, referenced in Item 1, and the beginning of the contest.
6. All individuals in the team bench area will appropriately apply a face covering while not on the playing surface.
7. In the event a member in Item 1 becomes symptomatic or has a positive test for COVID-19 in the 48 hours after a contest, the Director of Athletics or Sport Administrator and the Team Physician or Head Athletic Trainer will contact the opponent and Conference office as soon as reasonably able and the same day they are notified of the result.
